## Community Electricity Aggregation Program

<Date>

Dear Basic Service Customer,

The Town of Winchester, the Board of Selectmen and the MA Department of Public Utilities approved a Community Electricity Aggregation program, "WinPower", authorizing our community to aggregate the electricity load (usage) of those residents and businesses that are on Basic Service with Eversource (NSTAR Electric Company). The goals of the program are to provide you with competitive choice, longer-term price stability and more renewable energy.

You will be automatically enrolled in the Winchester Community Electricity Aggregation program unless you choose not to participate.

After a competitive bid process, Dynegy was selected as our Electricity Supplier with a contract term starting on the date of your scheduled July 2017 meter reading and expiring on your January 2020 meter reading. A comparison of the rates for the aggregation program and the current rates for Eversource (NSTAR Electric Company) Basic Service are shown below.

Rate Class	New Community Electricity Program "WinPower" Five (5) Percent Local Renewable Energy (Standard Product - No Action Required)	"WinPower One Hundred" (100) Percent Local Renewable Energy	"WinPower Basic" No Additional Local Renewable Energy	Eversource (NSTAR Electric Company) Utility Basic Service
Residential	\$0.10898/kWh	\$0.13558/kWh	\$0.10758/kWh	\$0.12888/kWh
Small Commercial	\$0.10898/kWh	\$0.13558/kWh	\$0.10758/kWh	\$0.12692/kWh
Industrial	\$0.10898/kWh	\$0.13558/kWh	\$0.10758/kWh	\$0.11492/kWh NEMA*
Duration	July 2017 – January 2020 (Rates apply to service beginning and ending on the days of the month that your meter is read in your service area.)			February 1 – June 30, 2018 (Residential and Small Commercial rates typically change every six months. *Industrial rate changes every three months.)

Rates indicated above are for Supply Services only. Under the contract with Dynegy, the aggregation program rate per kWh for electric supply will be fixed until your January 2020 meter reading. This rate is guaranteed to remain below Eversource's (NSTAR Electric Company) Basic Service rate until Eversource (NSTAR Electric Company) Basic Service rates change at the end of June 2018 for Residential and Small Commercial customers and at the end of June 2018 for Industrial customers.

There is no guarantee of future savings. The primary intent of the program is to provide price stability and savings over the duration of the 30-month term. However, Eversource (NSTAR Electric Company) residential and small commercial rates for electric supply typically change every six months and industrial rates change every three months. Thus, the Basic Service rates may be below the program rate during any subsequent period.

**ADMINISTRATIVE ADDERS** for all Winchester programs are included in above rates. These fees are: \$0.001/kWh for the aggregation consultant and \$0.000025/kWh (first 12 months only) for the Metropolitan Area Planning Commission (MAPC), the regional planning agency assisting the program. The Town of Winchester does NOT receive any fees associated with this program.
