Community Electricity Aggregation Program

Dear Basic Service Customer,

12/14/2018

The Town of Winchester approved a Community Electricity Aggregation program authorizing our community to aggregate the electricity load (usage) of those residents and businesses that are on Basic Service with Eversource. The goals of the program are to provide you with competitive choice, longer-term price stability and more renewable energy.

You will be automatically enrolled in the Winchester Community Electricity Aggregation program unless you choose not to participate. **YOU MUST MAIL AND POSTMARK YOUR OPT-OUT CARD ON OR BEFORE JANUARY 17, 2019 TO AVOID AUTOMATIC ENROLLMENT IN THE AGGREGATION PROGRAM.**

After a competitive bid process, Dynegy was selected as our Electricity Supplier with a contract starting on the date of the scheduled July 2017 meter reading and expiring on the January 2020 meter reading.

Rates indicated above are for Supply Services only. Under the contract with Dynegy, the aggregation program rate per kWh for electric supply will be fixed until your January 2020 meter reading. This rate will remain below Eversource's Basic Service rate until Eversource Basic Service rates change at the end of June 2019 for Residential and Small Business & Street Lighting customers, and at the end of March 2019 for Large Business customers. Rates apply to service beginning and ending on the days of the month that your meter is read in your service area. Program prices could increase as a result of a change in law that results in direct, material increase in costs during the term of the electric supply agreement. Delivery rates will not change as a result of participating in this program.

There is no guarantee of future savings. The primary intent of the program is to provide price stability, more renewable energy, and savings over the duration shown above. However, Eversource Residential and Small Business & Street Lighting rates for electric supply change every six months and for Large Business, every three months. Basic Service rates may be below the program rate during any given six-month and three-month period.

ADMINISTRATIVE FEES for all products in the Winchester program are included in the above rates. These fees are: \$0.001/kWh for the aggregation consultant and, for the first 12 months only (expiring August 2018), \$0.000025/kWh for the Metropolitan Area Planning Council (MAPC), the regional planning agency assisting the program. The Town of Winchester does NOT receive any fees from the program.
